Dear Mr. Weisberg,

A couple of tid-bits:

(1) Robert Morrow (Betrayal) left Congressman Downing a 79-page memorandum entitled "Motivation for the Assassination of John F. Kennedy" last Monday. Downing printed 40 Xeroxes of the memorandum and gave them to wire services, leading newspapers, etc. I was unable to get a copy from Downing's office; you may have better luck. The documents link Nixon to Kohly and the plot to flood Cuba with counterfeit currency.

(2) RKO General has bought a documentary; "The Two Kennedys: A View from Europe," for distribution this fall. It is 2 hrs in length, quite controversial, and gives an anti-Warren Report view of the assassination. The film was made in Italy by Rizzoli, and sold to Ben Barry Associates, New York City, who sold it to RKO General. RKO has 4 stations in U.S.: New York City (WOR), Los Angles, Boston, and Memphis (WHBQ). I will videotape it when it is shown over WHBQ, Channel 13, Memphis. Lance Russell, program director of WHBQ,

has promised that the documentary will definitely be shown. I talked to Ben Barry today. He learned of my views of the assassination, then said, "Well, you will like the Italian film, then. But you won't find anything there you do not already know." More on this when I get it on video tape.

How is your lawsuit on the spectrographic tests?

Sincerely yours,

Wallace Milam
